Resume Headline: PeopleSoft Consultant
Career Objective: Seeking a responsible and challenging job where there can be an excellent opportunity for professional advancement in ERP domain. I look forward to an exciting and challenging career with an organization that has a congenial working environment and provides excellent opportunities for mutual growth.

Years of work experience: 2
Work Experience (Most recent first): Project # 1
Project title : Test Management
Client : Exult Inc, USA
Duration : 1 year
Team Size : 8
Software used : PeopleSoft Payroll, PeopleTools , SQR
IBM Mainframes - JCL, COBOL, MVS, TSO/ISPF
Database : DB2.

Description:

The offshore test management team was created to provide more flexibility and a 24x7 support for Exult's onsite Test Management. The System Integration Testing (SIT) and support for the User Acceptance Testing (UAT) for the projects Disability Plan, CSP (Career Sales Professionals) and PeopleSoft Commission Accounting.

Responsibilities:

1. Involved in preparing test scenarios, scripts and SIT test plan.
2. Involved in the execution of Prudential's Payroll process for various Pay cycles.
3. Validation of the test cases against actual results of the Payroll process and raising Test Problem Reports (TPR) for the failed cases.

Project # 2

Project title : Business As Usual
Client : Prudential Inc, USA
Duration : 8 months
Team Size : 12
Software used : PeopleSoft Payroll , PeopleTools , SQR
IBM Mainframes - JCL, COBOL, MVS, TSO/ISPF

Database : DB2.

Description:

The Application Support & Maintenance(ASM) team is involved in handling Service Requests(SR) from the client. These SR's may include development of new programs or modification of existing ones to keep Prudential's PeopleSoft payroll system up to date with the company needs.

Responsibilities:

Involved in analysis, development and testing of SQRs and JCL programs.

Project #3

Project title : SCB Data warehousing

Client : Standard Chartered Bank, Singapore

Duration : 3 months

Team Size : 5

Operating system : Windows NT

Software used : PeopleSoft HRMS 8.x, PeopleTools 8.42, Impromptu, SQR.

Database : Oracle 8I.

Description:

SCB (Standard Chartered Bank) is performing its HRMS operations in PeopleSoft 8.42 HRMS module. The server is located at Singapore. To reduce the network traffic cost SCB wanted to create a data warehouse, which contains several ODS (Operational Data Stores). ODS contains the PeopleSoft HRMS application data that are frequently used by the end users for day-to-day adhoc reporting needs. Nightly scheduled extraction process engine (one per Operational Data Store) reads the PeopleSoft HRMS tables and refreshes the Operational Data Store (ODS) as per the predetermined extraction rules. Users can then use Cognos-Impromptu to query the ODS for their adhoc reporting requirements.

Responsibilities:

1. Involved in Data mapping i.e. recognizing the Tables and Fields required for Impromptu reports.
2. Involved in ODS Design.

Education: Master's Degree

May - 2003

Master of Computer Applications
Madurai Kamaraj University

Bachelor's Degree

May - 2000

Bachelor of Science in Physics
University of Madras
